LETTER OF EXPECTATIONS

Fall 2026 Second Teaching Placement

September 8-November 20, 2026

I. General Expectations

This nine-week second student-teaching placement, approximately 45 school days, is designed to provide Piter Garcia with a substantial and supported teaching experience at Eastridge High School. Piter will participate in the life of the classroom and school, learn the students and instructional context, contribute to planning and assessment, and exercise increasing instructional judgment and responsibility while working closely with Patrick Flanagan.

Responsibilities will increase in ways that serve students, fit the classroom context, reflect Piter's readiness, and remain workable for Patrick. Co-teaching will be used whenever it supports student learning and gives Piter meaningful opportunities to plan, teach, assess, and reflect alongside an experienced educator. Piter is not expected to assume responsibility for every course or section. His primary teaching responsibility will center on the Introduction to Marketing preparation, with continued co-teaching and support in Principles and Tools of Business/Microsoft Office.

The entrance and exit from the placement will be intentional. Responsibility will increase quickly enough to provide a substantive teaching experience while preserving continuity for students. During the final portion of the placement, Piter will return responsibilities to Patrick thoughtfully and completely, including agreed grading, documentation, instructional follow-up, and transfer of materials.

All participants will follow East Irondequoit Central School District, Eastridge High School, Warner School, and University policies; protect student and family confidentiality; communicate promptly and professionally; and seek support early when expectations or circumstances are unclear.

II. Specific Requirements

A. Candidate - Piter Garcia

Piter will:

1. Attend according to the schedule in this agreement, arrive prepared, and communicate promptly about absences, delays, emergencies, or schedule changes.
2. Learn the assigned courses, curriculum, students' learning context, classroom routines, school procedures, and approved technology systems through observation and active participation.
3. Support students individually, in small groups, and during whole-class instruction using respectful, strengths-based communication and Patrick's established classroom routines.
4. Co-plan, co-teach, and lead instruction with increasing responsibility. His primary teaching focus will be Introduction to Marketing in Periods 1 and 5C6A. He will continue to co-teach and support Principles and Tools of Business/Microsoft Office in Periods 4 and 7 and participate in the Period 8 co-op/check-in block when instructionally useful.
5. Prepare lesson plans and materials that identify learning goals, lesson sequence, materials and technology, accessible supports, checks for understanding, and follow-up adjustments. Plans for new or substantial instruction will be reviewed with Patrick before use.
6. Use clear student-facing directions, purposeful pacing, visual models, vocabulary support, chunked steps, response opportunities, and accessible digital materials as appropriate to the lesson and students.
7. Use Microsoft Office/365, Teams, classroom files, assessment tools, and other school systems within district policy and Patrick's direction.
8. Design and use formative and summative assessments under Patrick's supervision; analyze student evidence and adjust instruction. Patrick retains responsibility for official grades and records while Piter may grade or provide feedback when delegated.
9. Route parent/guardian communication through Patrick unless Patrick specifically authorizes Piter's participation.

School and administrative communication will follow established building procedures.

10. Request and use feedback, reflect on student learning and participation, and maintain an organized private collection of permitted lesson plans, reflections, feedback, and de-identified evidence for Warner requirements.
11. Maintain professional conduct, confidentiality, appropriate boundaries, punctuality, and timely communication throughout the placement.
12. Not serve as a substitute or assume sole responsibility for a class in Patrick's absence.

B. School-Based Teacher Educator - Patrick Flanagan

Patrick will:

1. Orient Piter to Eastridge, the assigned courses, curriculum, students' learning context, classroom routines, safety procedures, technology systems, and relevant district and school policies.
2. Identify meaningful opportunities for Piter to observe, assist, co-plan, co-teach, support students, and gradually assume instructional responsibility.
3. Model instruction, classroom routines, assessment, feedback, and professional practice and explain the reasoning behind important instructional and curricular decisions.
4. Co-plan with Piter and review lesson plans and materials before new or substantial candidate-led instruction, providing timely and actionable feedback.
5. Observe Piter regularly during instruction, provide ongoing feedback, and identify specific next steps for growth.
6. Meet with Piter at least weekly during available planning time, with brief daily check-ins as needed, to discuss upcoming instruction, student learning, pacing, feedback, and responsibilities.
7. Serve as the school liaison for official grades, records, attendance, discipline, family communication, and school-level decisions and clarify the boundaries of any task delegated to Piter.
8. Complete required evaluation responsibilities, including CCAST evaluator training, independent CCAST ratings, evidence discussion, and participation in midpoint and final consensus conferences.
9. Collaborate with Zenon on observations, evaluation, support, and the transition into and out of the placement.

C. University-Based Teacher Educator - Zenon Borys

Zenon will:

1. Support Piter and Patrick throughout the placement and clarify Warner requirements, observation procedures, evaluation processes, forms, and submission expectations.
2. Conduct three observations during the nine-week placement at instructionally meaningful and mutually workable times.
3. Meet with Piter and Patrick as soon as practical after each observation to discuss evidence, feedback, questions, and specific next steps.
4. Complete CCAST evaluator training and coordinate two CCAST administrations. For each administration, Piter, Patrick, and Zenon will assess Piter independently and then meet to examine evidence, discuss ratings, and reach consensus.
5. Use the midpoint CCAST formatively to establish goals for the remainder of the placement and the final CCAST summatively to assess performance and identify goals for the transition into professional practice.
6. Remain available to Piter and Patrick for questions, concerns, or additional support throughout the placement.

III. Schedule

A. Daily Schedule

Piter will arrive at Eastridge by **7:00 a.m.** so that he is prepared for the first instructional block at 7:30 a.m. On normal placement days, he will remain through his final planned instructional and planning responsibilities, ordinarily concluding at approximately **2:15 p.m.** and no later than **2:30 p.m.** On previously communicated RIT DSCI602 meeting dates, Piter will leave Eastridge at **11:30 a.m.** to travel to the required noon RIT class block. Schedule changes will be communicated as early as possible and coordinated with Patrick and Zenon.

The regular placement map is:

Block	Regular time	Placement responsibility
Period 1	7:30-8:12 a.m.	Introduction to Marketing; primary teaching focus with increasing responsibility.
Periods 2-3	8:17-9:53 a.m.	Planning, preparation, lesson review, reflection, and school responsibilities.
Period 4	9:58-10:40 a.m.	Principles and Tools of Business/Microsoft Office; co-teaching and instructional support.
Period 5C6A	11:32 a.m.-12:14 p.m.	Introduction to Marketing; primary teaching focus with increasing responsibility.
C lunch	12:18-12:44 p.m.	Lunch.
Period 7	12:49-1:31 p.m.	Principles and Tools of Business/Microsoft Office; co-teaching and instructional support.
Period 8	1:36-2:18 p.m.	Co-op/check-in, planning, student support, and transition work when instructionally useful.

School-announced advisory, assembly, closure, testing, or other modified schedules supersede the regular bell schedule.

B. Progression of Teaching Responsibility

Dates	Responsibilities
Sep. 8-11	Orientation and entry: learn routines, students, course structures, district systems, and classroom expectations; observe instruction; assist students; prepare bounded instructional contributions.
Sep. 14-25	Supported participation: co-plan and lead short marketing activities and lesson segments; support Chapter 1 instruction; strengthen pacing, directions, whole-room awareness, Microsoft 365/Teams workflow support, and formative checks.
Sep. 28-Oct. 16	Increased responsibility: co-plan and teach full Introduction to Marketing lessons and connected lesson sequences in Periods 1 and 5C6A; continue co-teaching and support in Periods 4 and 7; use assessment evidence to adjust instruction.
Oct. 19-Nov. 6	Primary responsibility: assume primary planning and instructional responsibility for agreed Introduction to Marketing sequences, including assessment and feedback, with Patrick's oversight; expand responsibility in other assigned classes when appropriate.
Nov. 9-13	Consolidation and transition planning: maintain agreed teaching responsibility, complete assessment and feedback cycles, organize materials, and identify responsibilities that need to transfer back to Patrick.
Nov. 16-20	Intentional exit and hand-back: transfer primary responsibility fully to Patrick; complete agreed grading, documentation, instructional follow-up, material organization, and student-learning handoff through approved school systems.

IV. Lesson Plans

Piter and Patrick will use the school's planning systems for classroom instruction and the Warner lesson-plan format when required for University observation or coursework. Piter will share plans for new or substantial candidate-led instruction at least one school day before use whenever possible. Patrick and Piter will review planning at least weekly during the shared Periods 2-3 planning window, with brief daily checks when the next day's instruction requires adjustment.

Planning reviews will address learning goals and course alignment, lesson sequence, anticipated student responses, accessible supports, materials and technology, pacing and transitions, checks for understanding, assessment, and instructional follow-up. Patrick will determine whether a candidate-prepared activity is used as written, adapted, or deferred.

V. Meetings and Communication

1. **Regular SBTE-candidate meeting:** Patrick and Piter will meet at least weekly, normally during available Periods 2-3 planning time, for approximately 20-30 minutes. The focus will be upcoming instruction, lesson-plan review, student-support needs, feedback, reflection, assessment, and next steps.
2. **Daily coordination:** Patrick and Piter will use brief check-ins before or during planning time to confirm the day's instructional roles and any needed adjustments.
3. **Additional meetings:** Either party may request an additional meeting by email, phone, or in-person coordination. Urgent student or safety concerns will be addressed immediately through school procedures.
4. **Post-observation meetings:** Piter, Patrick, and Zenon will meet as soon as practical after each UBTE observation to review the lesson, evidence, strengths, areas for growth, and next instructional goal.
5. **Routine communication:** Email will be used for formal planning, University documentation, and non-urgent coordination. Same-day absences, delays, or urgent schedule changes will be communicated by phone or text to Patrick as early as possible, with University notification to Zenon and any required written documentation.
6. **Confidentiality:** Identifiable student information will be stored and shared only through district-approved systems and according to school and University requirements.

VI. Observations and Evaluation

Patrick will observe Piter continuously through their shared classroom work and provide regular informal feedback. Before a UBTE observation, Patrick and Piter will review the planned lesson and identify any priority areas for feedback.

Zenon will conduct **three formal observations** during the placement. Observation dates will be scheduled by email so that each visit captures meaningful instruction and works for the school and University schedules. Piter will provide the required lesson plan and related materials according to Warner expectations before each observation.

The placement will include **two CPAST administrations**. Piter will complete a self-assessment for each administration. Patrick and Zenon will complete the required evaluator training and independent ratings. The three participants will then meet to review evidence, discuss ratings, and reach consensus. The midpoint CPAST will be scheduled after the first or second observation early enough to create meaningful growth goals for the remainder of the placement. The final CPAST will occur after the third observation and will serve as the summative assessment of the placement.

Evidence will come from across the placement, including planning materials, assessment evidence, reflections, classroom interactions, observations, and Patrick's sustained knowledge of Piter's daily practice. Piter will maintain permitted, de-identified evidence for the Field Experience Resource Guide and other Warner requirements.

VII. Possible Situations

1. **If Patrick is absent:** Piter will follow the direction of the assigned substitute teacher and building administration. Piter will not serve as a substitute or assume sole legal responsibility for the class. He may assist or teach only within the supervision and procedures established by the school.

2. **If Piter is absent or delayed:** Piter will notify Patrick as early as possible by phone or text and notify Zenon through the University communication channel. He will complete any Warner absence documentation required and coordinate make-up time when a full or partial absence reduces required placement participation.
3. **School closure, snow day, delay, or emergency:** Piter will follow East Irondequoit and Eastridge announcements and procedures. When a closure or delay affects an observation, evaluation, or scheduled teaching responsibility, Piter will contact Patrick and Zenon promptly to reschedule or adjust the plan.
4. **University-course conflict or schedule change:** Piter will communicate the conflict as early as possible and coordinate the affected arrival, departure, or instructional responsibility with Patrick and Zenon.
5. **Instructional, student-support, or safety concern:** Piter will follow school procedures and consult Patrick promptly. Zenon will be contacted when University support, clarification, or mediation is needed.
6. **Change in teaching responsibility:** Piter, Patrick, and Zenon will communicate about any substantial change in Piter's teaching assignment or progression so that the placement continues to serve students and meet Warner requirements.

Agreement

The undersigned participants agree to the responsibilities, schedule, communication procedures, and instructional progression described in this Letter of Expectations.
